

Latrine Permission

Colorado State Government has started to require us to obtain permission from the parent or guardian to aide Scouts use of and retrieval from pit style latrines under section 7.712.52.99/d subparagraph 42 D of the “But what about the Children Act?” of 2019 section 12 CCR 250934/a.56.

I _____ (print your first and last name)
authorize staff to offer aid in applying noseplugs, water wings,
hand sanitizer and a rescue harness to my scout
_____ (Scout’s first and last name)
before and after using said pit latrine.

If my child does not use said pit latrine, Camp is not liable for any spontaneous explosions and damage resulting therefrom. I authorize Camp to provide the available Personal Protection Equipment (PPE) at the Medical Lodge that will be grade 30 Hazmat rated or higher whether your scout requests it or not.

If my child provides their own PPE, their first and last name and dental records will be written on the latrine check in sheet and will only be used by that scout.

Safe retrieval of scouts is not guaranteed, quarantines will be enforced.
